

# LA FOLLETTE

AN ONGOING DIALOGUE  
WITH SINGULAR VINEYARDS

La Follette embraces the old-world concept of terroir: that each individual vineyard site has a unique expression, that can be expressed through the wines made from grapes grown in that place. The winemaker's role is to create a wine that is transparent to the site, pure in its expression and enjoyable to drink. As we work with these sites, vintage after vintage, our understanding deepens and the wines become more reflective of that place, at that time.
