

## Domaine Caillot

The Caillot domaine was established in the village of Meursault by Roger Caillot, Michel's father. In the cellar, Michel is a fanatic for quality and practices natural winemaking. Michel's wines have a distinct house style. The whites are beautifully balanced combining aromas of lemon zest and spice and vanilla toast with the fascinating minerality of the soil, a fine, creamy texture and a crisp, long and complex finish. The oak remains in the background and the individual character of the different terroirs is allowed to show through. The reds are smooth and supple with pure berry and cherry aromas, round tannins and a crisp, clean finish.
