

PEIRANO ESTATE
Vineyards
Lodi, CA

Beginning with the hard work and inspiration of Giacomo Peirano, five generations have grown and harvested from our vineyard for over 100 consecutive years. Knowing that great wine must begin with the finest grapes, it has always been our belief that wine should reflect the character of the fruit and the land.

Lodi has an ideal Mediterranean climate with deep, rich, sandy-loam soil and abundant water which combine to produce quality wine grapes. Our dedicated goal has been to produce the most unique, consistent, and distinctly balanced wines that our fertile soil and labor of love can create.
