

Bodegas Volver – D.O. Alicante

Located in the town of Pinoso, the winery owns 185 hectares of mostly old vine Monastrell, the most important indigenous variety planted between 1925 and 1979. The vines are located high in the mountains surrounding Pinoso, with a very arid and extreme climate that is challenging for the vines but produces distinctive and intense wines. The vineyards are planted in soils that are primarily dominated by chunks of pure chalk located near the largest marble quarry in Europe. These soils add a drastic minerality and elegant chalky texture to the wines.
